

Rassenliste Schweiz / List of Breeds and Crossbreeds with restrictions in the cantons of Switzerland (English text below)

[illegible]

**1 Permit is only granted if the dog comes from a kennel recognized by the FCI. In addition, check with the cantonal authority if it's a dog with KC or AKC pedigree.*

**2 Large (over 45 cm height on withers) or massive dog types (over 16 kg body weight) belong to the breed type list 1 in the canton of Zurich. See dog law canton Zurich. *Avoid Zurich with any dog! (*note from the translator).*

3 Permit and test required for **all dogs with more than 25 kg of weight and/or more than 56 cm height on withers*

green = no regulations / **yellow** = only with authorization / **red** = banned

The breed regulations also apply to all crossbreeds out of listed or banned breeds and to all "fantasy breeds" related to the listed or banned breeds like: Basicdog, Swiss Blue Bully, Swiss Champagner Bully, ect.

If, due to the appearance of the dog, there are indications that it can be counted among the banned breeds and if there is insufficient proof of origin, the veterinary office will decide on its use, based on the external appearance of the dog.

*This list is just a rough overview. It may not be complete and / or has been supplemented with other breeds in the meantime. **For further details on the individual dog laws, please read the respective cantonal regulations and contact the relevant veterinary office if you have any questions.***
